Personal Statement

Highly motivated, ambitious and passionate learner who has excellent programming skills. I have completed a level 5 QQI course in Games and Apps development and am currently studying for a level 8 Honours degree in Computer Game Development. I ensure that I always work my best to create best quality of work. Very quick to learn and adapt new things, Great Organizing skills, able to organize work to have everything done on time, Once I understand something, I love to share it with someone who needs help, so I can help and explain on how things work. I now pursue an internship to provide an insight into working in the industry and to learn and expand my skills on what I am passionate about.

Key Skills

Unreal Engine	<i>World Building, Animations, Character Control & Systems</i>
Unity	<i>World Building, Character Control & Systems</i>
